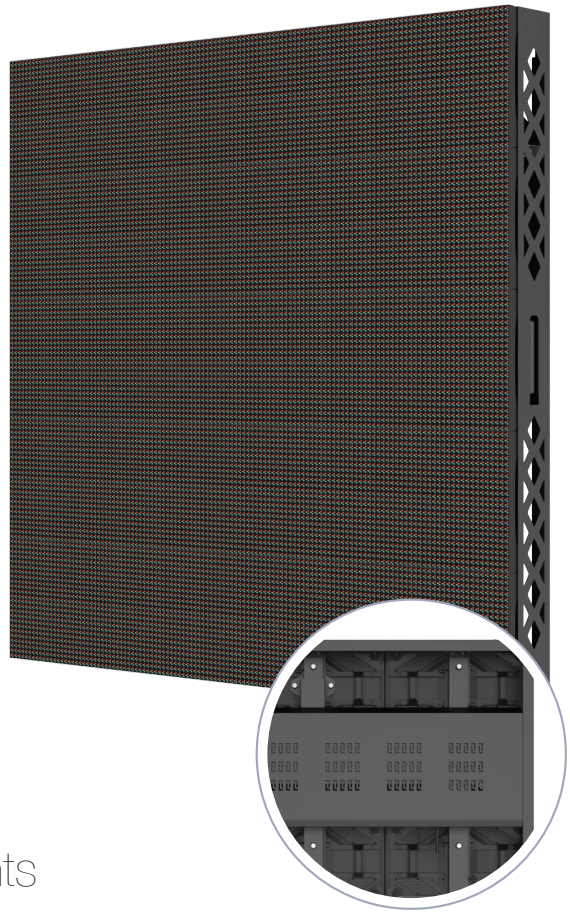
Essential LIGHT P10 DIP

LED-display - Outdoors - 1R1G1B



- Affordable with quality components
- Slim and light-weight
- Maintenance access front and rear
- Adapted for harsh Nordic climate and light conditions

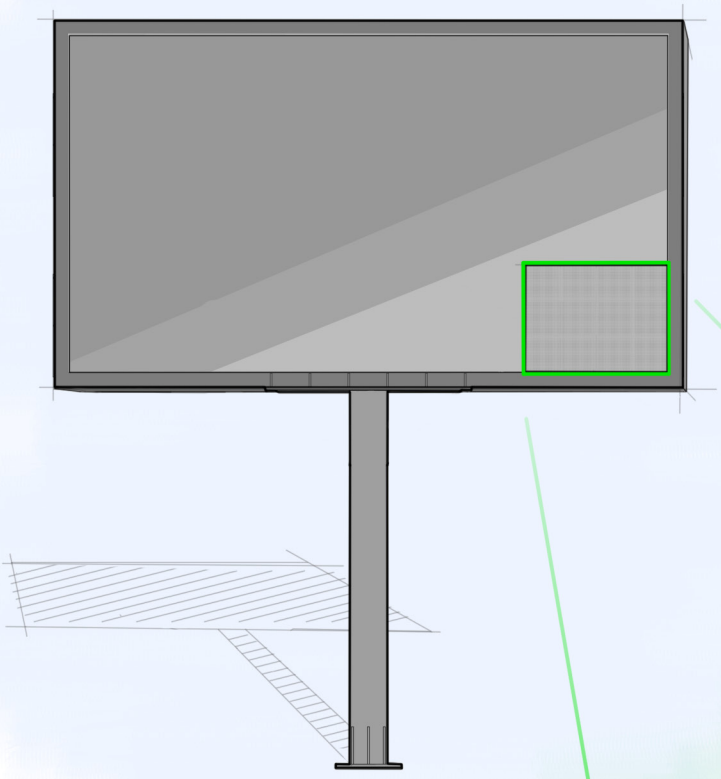
LED-Screen for outdoor use

Microbus Essential LIGHT is a slimmed down and light LED-display that stands on well established and thoroughly tested hardware. It is designed to handle the Nordic climate's hot summer days as well as it's cold winter nights.

Microbus Essential LIGHT is for you if you want a durable LED-display where weight needs to be minimized.

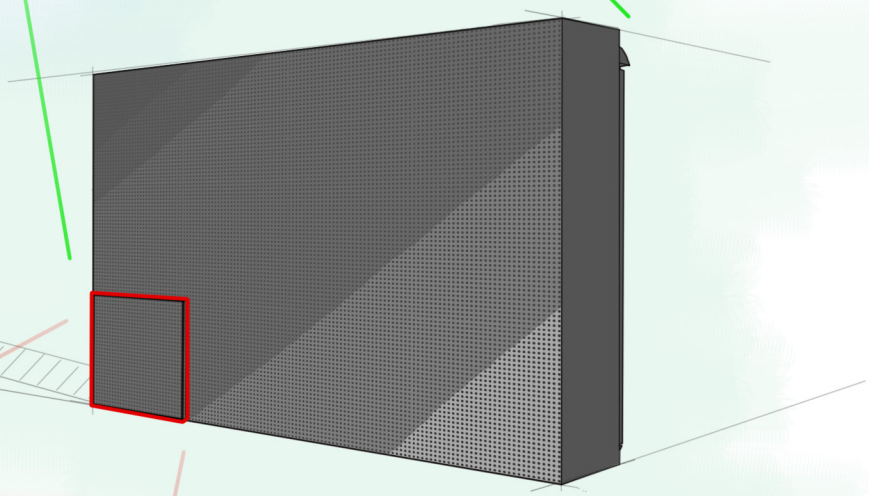
RoHS RS485 TCP/IP

ENG



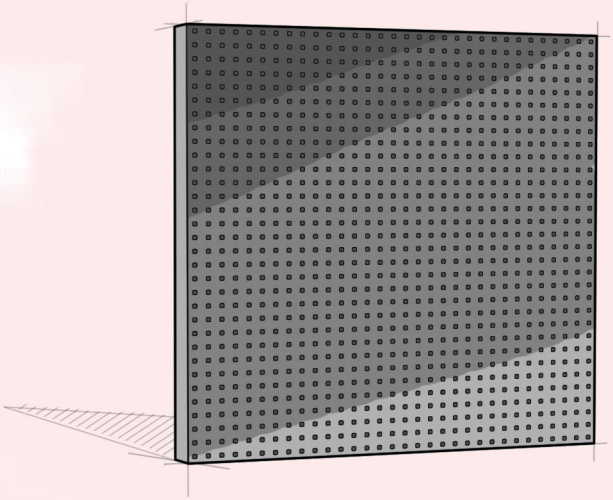
LED-display

A LED-display come in many different sizes, often a combination of many smaller cabinets



Cabinet

A cabinet, also known as a panel, is in turn a combination of many smaller modules



Module

A module is the smallest Screen section in a LED-display
